

Quality Policy

Purpose

NEXTDC is an ASX-listed company that builds and operates next generation data centres. NEXTDC's independent facilities offer flexible, scalable colocation solutions and connectivity to government and private enterprises. NEXTDC strives to not only meet our customer requirements, but to also provide an enhanced customer experience.

Scope

The scope of the Quality Management System is "The design, development and provision of secured data centre infrastructure and associated services"

Methodology

NEXTDC is committed to the principles and practices of Quality and has implemented its Quality Management System, otherwise known as the NEXTDC Business Framework based on ISO9001. By adopting the Plan – Do – Check – Act Methodology along with the process approach, NEXTDC aspires to become a more professional, stable, standardised, efficient and communicative organisation.

By continually reviewing our processes, we identify if any changes have occurred and continually review the Business Framework, including policies and procedures to ensure they meet business requirements, which improves their effectiveness.

Objectives

NEXTDC's execution and financial highlights, capital achievements, strategy update, and business updates are reviewed and captured in the Annual General Meeting and Half Yearly Results. Further information may be found at <http://www.nextdc.com/our-company/investor-centre/documents/asx-announcements>

Exclusions

There are no exclusions to ISO9001.
